MORE DETAILS OF HOME LOANS ARE EXPLAINED

NEW STEPS NECESSARY TO OBTAIN FUNDS TO IMPROVE RESIDENCES

AVENS OUTLINES LOAN PLAN

Federal Modernization Program Explained by County Chairman As Result Of Inquiry

Several inquiries have come to the county in regard to more details of the exact procedure in securing loans under the federal administration housing act. We have asked C. W. Havens, general county chairman, for more details in regard to this matter and the following is his explanation of the procedure.

The steps to be taken to secure a loan are really very simple. There is no complicated procedure. Any property owner, individual, partnership, or corporation, with a regular income from salary, commissions, business, or other assured source may apply. It is not necessary that you have had any previous connection with the financial institution to which you apply, nor do you have to be a depositor. You may apply to any state or national bank, trust company, savings bank, industrial bank, building and loan association, finance company or similar institution that has been approved by the federal housing administration. You may also apply to your contractor or building supply dealer.

"How much can you borrow?" You can borrow from \$100 to \$2,000, depending upon your income, for improvements on any one property. You may on occasion borrow the maximum of \$2,000 on each of several properties if you wish to improve all of them, except that if the number exceeds five, special approval of the federal housing administration is required.

Notes which you give for the loans anywhere from one month to three years, or even five years in special instances.

In obtaining loans the only security asked is the assurance that you have an adequate regular income and a good credit record in your community. There are loans for real estate loans. They are personal character loans. It is expected that such loans will be extended upon the basis of personal credit standing.

However, certain assurances will be needed in order to afford the financial institution protection for the money of its depositors. You will be asked to certify that you own the property, but in certain instances to be determined by the financial institution, loans will be granted if you hold property under a "repairing lease." Furthermore, your annual income must be at least five times the annual payments due on the note. Naturally your mortgage, if any, must be in good standing, and it must be assured that you have no outstanding taxes, interest, or other liens against your property.

"It is required that you use the proceeds of your loan solely for property improvements. Furniture and other moveable equipment cannot be financed under this plan.

"When these few assurances are checked, all that is left to do is the signing of the notes. If the owner is an individual and is married, the signature of the wife or husband, as the case may be, usually will be required. So other cosigners or endorsers are necessary.

"And now we come to a vital point. How much is this loan going to cost?"

The answer is: A relatively small amount. As provided in the regulations the maximum amount of charges that a financial institution is permitted to make for an insured modernization loan is based on \$5 discount for each \$100 on a one-year note to be paid in equal monthly installments. Because these installments are being made regularly the ratio of gross charge to average balance is 0.0972 per year, or about 8 cents a month for each \$10 borrowed.

"Let us take an example in order to gain a more concrete picture. If you need \$285 for housing improvements, you might sign a note for \$300 payable in 12 equal monthly installments. In this case the note would not bear interest because the maximum charge permitted—\$15—would be included in the face of the note, or if you borrowed a larger amount, or if you repaid in equal monthly installments extending over

REVOLUTIONARY STRIKE RESULTS IN OUTBREAKS OVER ENTIRE NATION

25 KNOWN DEAD; MANY HURT

Government Troops Battle Strikers in Various Sections of Country. Riot Charged

MADRID, Oct. 5, (UP)—Total known dead in the revolutionary general strike late this afternoon were more than 25, with many more wounded. The casualty list mounted rapidly as reports came in from the provinces, and it was feared the total dead and injured might exceed 100.

(Copyright 1934 by United Press)
OVIEDO, Spain, Oct. 5 (UP)—Open revolution spread through Asturias province, in northwestern Spain, today when miners and other elements joined in the left wing national strike against the new Spanish cabinet of Premier Alejandro Lerroux.

Clashes between civil guardsmen and strikers were general and beleaguered government forces in various towns asked the government at Madrid for reinforcements. The fighting in this area appeared more serious than in other sections of the country.

Eight were known dead in early clashes, and a large death list was indicated by reports of sanguinary, widespread fighting.

Socialists wearing red arm bands, equipped in military style with rifles and cartridge belts, clashed with police here.

Rebels attacked the civil guards at Llaneza. Several were known dead.

The future of the republic was believed at stake in today's strife.

Workers went on strike in the early morning hours. Extraordinary violence soon broke out. All miners in the province joined the left wing forces, which are protesting inclusion of so-called Fascist elements in the new cabinet.

Various dead and wounded were reported in several towns, where civil guards fought the strikers from the early morning until 9:30 a. m.

Charles Yant Hurt Thursday

SUFFERING FRACTURES WHEN TRUCK IN WHICH HE IS RIDING OVERTURNS

Charles Yant, age 35, of Reelsville, suffered a fractured right collar bone and a fractured left arm, Thursday afternoon in an accident on the National road between Manhattan and Pleasant Gardens.

It was said Yant was a passenger in a truck belonging to Ed Chew of Reelsville, driven by Chew's son, which collided with another truck.

Yant was brought to the Putnam county hospital where he was given treatment by a local physician. His condition was reported good Friday.

According to reports the truck in which Yant was riding tried to pass another truck when it met a third vehicle. In trying to avoid a head-on collision the truck cut back and hooked the back end of the second truck, causing it to overturn. Chew was uninjured.

KIDNAPING ATTEMPT FAILS

WHEELING, W. Va., Oct. 5, (UP)—A nervous plotter who originally had intended to aid in kidnapping Betty Bloch, 24, daughter of a wealthy tobacco man, gave federal agents the "tipoff" that resulted in capture of two men as they were about to carry out their plan.

Agents withheld the name of the man who told them three weeks ago the girl was marked for kidnapping on the eve of her wedding. They also would not say what prompted him to give the information.

With his information, the agents made their three weeks of investigation which resulted Wednesday night in the arrest of Thurman Bowen, 31, and Harry Thornton, 32, on charges of attempted kidnapping.

The two men were held for \$100,000 bond each after their arraignment before a commissioner here. The agents said they confessed they planned to kidnap the heiress and demand \$25,000 ransom.

Miss Bloch is to be married tomorrow afternoon to Wilmot A. Harris, of Washington, a former national bank examiner.

MONON R. R. WOULD PAY BACK TAXES

PROPOSAL MADE TO STATE TAX BOARD EXPLAINED TO OFFICIALS

MEETING WAS HELD HERE

Majority Approve Railroad's Plan to Pay 60 Percent of Delinquent Taxes

Proposal of the Monon railroad, now in federal receivership, to pay a large part of its delinquent taxes was outlined to Montgomery county officials Thursday by David Hostetter, of Roachdale, field representative of the state board of tax commissioners. A similar meeting was held in Greencastle early this week.

Mr. Hostetter explained the plans of the railroad in full and found the officials almost unanimous in their approval of the tax board's action.

The railroad, with the approval of Federal Judge Wilkerson, of Chicago, proposes to pay 60 per cent of the delinquent tax which was payable in 1933 before Jan. 1, 1935, and to pay the remainder of their delinquent taxes by the first of next May.

Mr. Hostetter, in his talk to the officials, pointed to numerous decisions of federal courts in the past that state and local taxes are not priorities and also pointed to decisions where the federal courts have reduced assessments of railroads by two-thirds and even more.

The railroad, he said, feeling its obligation as a "citizen" of the state, does not wish to take such a step and to avoid its back taxes completely, as would be possible under a federal receivership, but, instead, wishes to make a settlement on its delinquencies.

Mr. Hostetter pointed out the possibility of the federal court completely wiping the delinquent taxes off the books, as it has the right to do. Such an action would, of course, mean the total loss to the county, towns and the townships affected of the entire amount of the delinquent taxes and the probable drastic reduction in future taxes against the road.

Using the old adage that "it is better to have half a loaf than none," it was the opinion of practically all of those present that the state board should accept the proposal of the railroad company—or, rather, the receiver for the company—so that the first portion of the delinquent taxes could be collected soon.

Meetings similar to the one held here are being held by tax board representatives in all of the 26 counties in the state in which the railroad has holdings. The attitude of the various officials then will be reported to the tax board at Indianapolis.

It is pointed out that the proposed settlement would not be either a compromise on the taxes nor a reduction of the taxes, but would be in the form of a reduction of an excessive assessment.

The Monon railroad, which is almost entirely an Indiana road, serves principally the counties in the central and western sections of the state. During the past few years, the business of the road has declined greatly until the road was forced to go into federal receivership in an effort to conserve the company's resources.

It is the attitude of the tax board and of the vast majority of taxing officials that it is only fair to take steps to aid the railroad in recuperating its losses and place it again in the position of being a solvent firm, serving two-thirds of the residents of the state.

They point out that most of the employees of the railroad are residents of the state and that most of the purchases of the railroad are made in Indiana. Thus, abandonment of the road, which is a possibility unless it can be reorganized and again become solvent, would cause a vast hardship on thousands of residents of the state.

JURY HEARS EVIDENCE IN FRAUD CASE

TRIAL OF SAMUEL INSULL GETS UNDERWAY IN FEDERAL COURT

CHICAGO, Oct. 5, (UP)—Samuel Insull, Sr., on trial with 16 others on mail fraud charges, today turned over to the state attorney's office five letters he had received which threatened to "expose" his \$2,000,000 utility set-up.

The gray-haired former utility magnate said he was not disturbed by the letters, three of which were unsigned.

Although abusive in tone, the letters from disgruntled investors did not threaten Insull's life. The writers said they hope to be able to arrange a radio broadcast "exposing" the transactions which made Insull and his aides leading financiers of the midwest.

All the letter writers said they wanted to testify regarding their losses in Insull securities at the present trial before Judge James H. Wilkerson.

CHICAGO, Oct. 5, (UP)—Twelve jurors whose financial figures seldom have led them past four figures were initiated today into the bewildering realm of Samuel Insull's former utility empire, where millions were chicken feed.

The talesmen yesterday heard United States Attorney Dwight H. Green assert that Insull and 16 co-defendants were guilty of a "simple" conspiracy to swindle the public of some \$120,000,000. Almost immediately the young though grey-headed prosecutor called the first of more than 200 witnesses who will recite arithmetic and dull facts which Green thinks will send the former czar of the gold coast to a prison cell.

Furrowed brows and intent positions showed that the jurors and two alternates intend to take their work seriously, even though they have been snatched from their homes and business for possibly four months.

Green's first witnesses were used merely to identify some of the 2,500 documents—ledgers, prospectuses, letters, checks—which the government says will prove that Insull and his associates in the Corporation Securities company mulcted investors deliberately.

The huge, walnut paneled courtroom of Judge James H. Wilkerson became a battleground of legal technicalities with the first witness.

Attorney Harry Ditchburne moved for a directed verdict of acquittal for Harold and Charles Stuart, heads of Halsey, Stuart & Co., international bond brokers who directed Insull's stock selling campaigns. Judge Wilkerson overruled the motion.

Insull, displaying interest in every move of the fight for his freedom, smiled at his wife in the front row bench as one of his attorneys charged that "the government is trying to try Al Capone here."

The remark was evoked by a statement that Judge Wilkerson, in trial of Capone on income tax charges, had ruled that documentary evidence such as is being adduced in the Insull case was permissible.

Green charged in his opening statement that Insull at one time bought stock from Insull Utilities company at \$15 a share, sold it to Corporation Securities company at \$40 a share and made a profit of \$1,284,000 overnight.

"This case is not complicated," he told the jury. "It will be a slow and tedious process in bringing this class of record evidence before you. But in the end you will find it to be a simple conspiracy to swindle, cheat,

ELBERT HUBBARD SAYS

"If you work for a man, in Heav-
en's name work for him. If he pays
you wages which supply you with
bread and butter, work for him,
speak well of him, stand by him and
stand by the institution he rep-
resents. If put to a pinch an ounce of
loyalty is worth a pound of clever-
ness. If you must vilify, condemn and
eternally disparage—resign your po-
sition, and when you are outside
damn to your heart's content, but as
long as you are a part of the in-
stitution do not condemn it. If you
do that, you are loosening the ten-
dons that are holding you to the in-
stitution and at the first high wind
that comes along you will be up-
rooted and blown away and probably
you will never know the reason why."

These few sentences by Elbert
Hubbard entitle their author to a seat
among the mighty. No other single
virtue is so important: accuracy,
ability, perseverance, initiative, per-
sonality, all these are important, in
many cases absolutely necessary;
but the employee without loyalty to
the firm or institution which provid-
es him with the means of earning a
livelihood is not earning his salary.

Mrs. Harry Allen returned to her
home in Northwood Friday from the
county hospital.

Walter Bengell, DePauw student
entered the county hospital Thurs-
day for treatment.

Frank Hurst of Jefferson township
is confined to his home suffering of
blood poisoning in his foot.

Suit for ejectment and damages of
\$50 was filed in circuit court Friday
by Montie Prichard against James
C. Martin and Margaret Martin. F.
V. Thomas is attorney for the plain-
tiff.

Nellie M. Stockwell of Cloverdale
township filed suit for divorce in
circuit court Friday against James
L. Stockwell on grounds of mistreat-
ment and failure to provide. Accord-
ing to the complaint the couple
married June 29, 1929 and separated
July 4, 1934. An application for suit
money accompanied the divorce ac-
tion. W. T. O'Neal is attorney for the
plaintiff.

BLOOD LIQUID FAILS TO AID HUMAN LIFE

WOODS HOLE, Mass., (UP)—A
scientifically prepared mixture, re-
ferred to as artificial blood, develop-
ed by Dr. William R. Amberson, pro-
fessor of physiology at the University
of Tennessee, has in the final analy-
sis, proven itself incapable of sustain-
ing life in man, and has illustrated
the necessity of the haemoglobin's
presence in the red corpuscles of the
blood of man and the animals.

Studying the organs of the animals
upon which he had experimented, Dr.
Amberson, in a lecture here, describ-
ed in the "Collecting Net," said he
discovered that when the haemoglobin
was isolated outside the walls of
its home—the red corpuscle—it
carried an insufficient amount of
oxygen. In addition he found that
this new compound, although re-
maining constant for a short while,
reverted almost completely to its
former composition, but did not re-
gain its oxygen carrying properties.
Only when the haemoglobin is con-
tained within the confines of the
membrane of the red corpuscle does
it function properly. Dr. Amberson
reports that the inability of the liquid
produced from his formula to trans-
port oxygen to the tissues of the ani-
mals resulted in asphyxiation.

In the test made at the university,
he was able to keep a cat alive for 36
hours, by pumping ex-blood from
which the haemoglobin had been ex-
cised to the surrounding blood fluid.
At that time his experiments re-
vealed that one of the foremost obstacles
to prolonging the cat's life was the
fact that once the haemoglobin is re-
moved from the red corpuscle, it
changed into a substance called meth-
aemoglobin—a poor oxygen trans-
porter.

Donkey Baseball
Game Scheduled

MUCH FUN IS PROMISED FANS
AT SOFT BALL PARK
THIS EVENING

Greencastle sport fans tonight will
see for the first time a game that is
taking the entire country by storm.
It is called donkey baseball and that
is exactly what it is as the fielders,
with the exception of the pitcher and
catcher are mounted on these ani-
mals. The batter, after hitting the
ball, has to jump on a donkey wait-
ing at the plate and then try to make
first base if possible.

The affair tonight will be repeated
again Saturday evening under the
floodlights at the city softball dia-
mond on south Locust street. The
games are being sponsored by the
local American Legion post and
spectators are promised several
hours of genuine hilarity.

The game this evening will be
played between a picked team from
the Business Men and Rotary-Ki-
wanis aggregations versus the Ellis
and Kroger clubs of the softball
loop.

The starting lineup for the Busi-
ness Men and Rotary-Kiwanis is an-
nounced as follows: Edmonson, short-
stop; Tzounakis, short field; Eitel,

second base; Donner, first base;
Zeis, catcher; Pease, right field; Hol-
lowell, left field; ohnson, center field;
Shonkwiler, third base; Robinson,
pitcher. A number of other players
on these two teams are expected to
see action before the tilt is over.
The Ellis-Kroger lineup was not an-
nounced but it is believed that the
best mule riders on the rosters of
the two clubs will participate.

Tomorrow night, a donkey ball
game will be played by the Zinc Mill
and Gardner Bros. teams opposing a
picked lineup from the Northern In-
diana Power and Postoffice squads.

CLOVERDALE WINS

Cloverdale, winners in the south-
ern division of the Putnam county
high school baseball league, defeated
Greencastle, champions of the north-
ern half, by a 6 to 4 score Thursday
afternoon on the Cloverdale diamond.
The Tiger Cubs outhit the Clovers, 6
to 3 but two home runs with mates
on bases resulted in the setback to
the locals. Greencastle committed
only one error in the field while two
bobbles were marked against Clover-
dale.

It was announced that a second
meeting between the two teams will
take place next week.

Score:
Greencastle 1 0 2 0 0 1—4 6 1
Cloverdale 0 0 3 0 3 0—6 3 2
Batteries: (G. H. S.) Hutcheson
and Clendenning; (C. H. S.) Scobee
and Orrell.

TO STUDY NRA PRICE CONTROL SAYS RICHBERG

THIS PHASE CAUSES MUCH DIFFICULTY AND CONTROVERSY

WASHINGTON, Oct. 5, (UP)—Price and production controls in codes, cause of much of NRA complications and difficulties, are to be investigated, industry by industry, by the new recovery board.

Desirability of gradually working out these problems according to individual industry needs rather than by sweeping changes in general policy was emphasized yesterday by Donald Richberg, coordinator of new deal agencies, speaking before the Press Club.

The NIRA, continuing its study of the basic questions involved in the code structure it took over early this week, indicated conferences with division administrators would begin soon to get at specific troubles of almost 700 industrial groups.

Richberg expressed the necessity, in some instances, of preventing destructive price-cutting and putting some controls on production. He said business men had been enjoying an "iridescent dream" of production and price control to produce profits but are now "seriously disillusioned."

"They are coming to realize that they had better come back nearer to the sound competitive system on which they were working," he said.

He pointed out that NRA, through public supervision, can make "an authoritative distinction between combinations to protect fair competition and combinations to eliminate competition."

Richberg waved aside reports that his industrial emergency committee of cabinet members and government emergency heads would stand between NRA's administrative board and the president. The NIRA will develop administrative policies, seeking presidential approval for more important ones, and put them into effect. Only where policies of NRA involve other government agencies will Richberg's coordinating committee step in, he said, laughing at headlines that he was new "czar of NRA."

The greatest danger to NRA and its program, Richberg thinks, lies with "intolerant partisans" among business men and labor leaders. They were characterized as desiring government support but shrinking from giving support, in return, to the government.

As example of such partisanship, he cited the "continuing controversy" over application of section 7-A of the recovery act. He denied any conflict over interpretations by himself and Administrator Hugh S. Johnson a year ago, and the recent NIRE decision sustaining majority rule in the Houde Engineering company case.

Under the section and both decisions, Richberg pointed out, "the individual has the right to represent himself" personally, or he may bargain through a committee. However,

Be it known that on the 26th day of September, 1934, said plaintiff filed affidavit in due form showing that the defendant Emmer R. Watson is a non-resident of the State of Indiana and a necessary party to the complaint herein; and that the object of said action is to sell real estate to make assets to pay debts, said non-resident defendant is now, therefore, hereby notified of the pendency of said action against him and that the same will stand for trial on the 20th day of November, 1934, the same being the 50th Judicial day of said Term, 1934, of said Court, and unless said defendant appear and answer or demur to said complaint at said date, the same will be heard and determined in his absence.

Princess a Mother

Crown Princess Maria Jose

Italy has launched its long-awaited celebration over the birth of a first child, a daughter, to Crown Princess Maria Jose, pictured above, and her husband, heir to the throne. Enthusiasm of the populace, however, was somewhat dampened that the infant was not a boy.

he added, "if he joins in electing representatives, he must abide by the will of the majority of the group and there is simply no other plan in the American democracy."

Contrasting the hopelessness of individual bargaining in larger factories with the practical desirability of it in establishing tranquil relations in small firms, Richberg said the law had to cover the whole field and leave decisions to workers themselves.

Gen. Hugh S. Johnson, former NRA administrator, was scheduled today to give a "farewell to New York" from the balcony of a downtown New York department store.

FAVOR AAA CROP CONTROL
DES MOINES, Ia., Oct. 5, (UP)—First tabulations of votes cast by 75,000 Iowa farmers in a referendum considered a conclusive test of farm

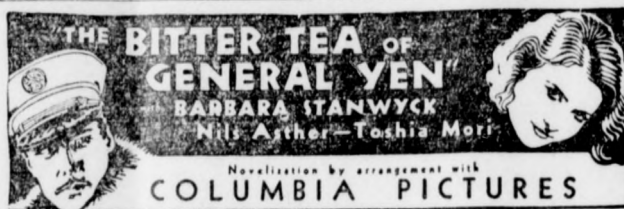

sentiment on AAA crop control showed 75 per cent of the voters desiring to retain the program in 1935.

Although all midwestern states were conducting similar polls, it was to Iowa that the administration looked as the main source of information on the desires of farmers. With \$73-700,000 in crop-hog benefits promised and \$27,000,000 of that sum already paid, Iowa has a large majority of participants in the 1934 reduction program.

The principal question was: "Do you favor a corn-hog program for 1935?"

In votes tabulated in 30 counties the answer was: Yes, 6,949; no, 2,518.

Only a few hundred farmers voted, according to Chairman R. M. Evans of the state reduction commission, on a second question: "Do you favor a one-contract per farm program on grain and livestock to take effect in

He goes to General Yen, military power, and requests a safe-conduct pass to China. After some persuasion, the General yields. Megan and Bob invade the war-torn China area and finally reach the orphanage where their car. When ready to leave with the six remaining children and Miss Reed, another missionary, they find their car has been stolen by Chinese soldiers.
